ONE Decreasing Deductible

REWARDING • VALUABLE • SMART

Imagine a health insurance plan that earns credits to reduce the amount you pay of your deductible. **It's available today**—*exclusively from Assurant Health*. You may never pay your full deductible again.

The One Decreasing Deductible is your plan deductible **reduced** by the credits that accumulate. Twice a year, Assurant Health applies a 10% credit that reduces the amount you pay of the plan deductible, until the deductible is met. The more credits you accumulate, the less you pay.

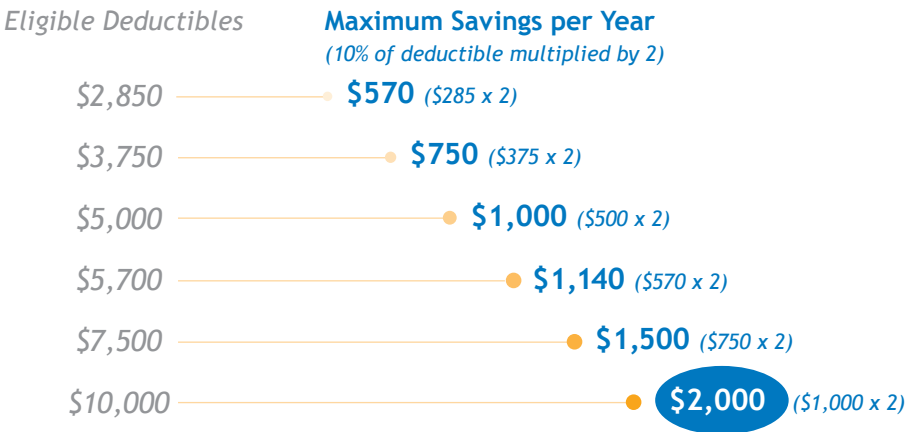

Options to choose

One Decreasing Deductible is available on 100% coinsurance plans with several different plan deductible options.* Choose a deductible that fits your pocketbook and your lifestyle:

- Individual plan deductibles of \$2,850, \$3,750, or \$5,000
- Family plan deductibles of \$5,700, \$7,500, or \$10,000

Each credit is 10% of your plan deductible amount. The **savings potential doubles** because credits are available twice a year. The highest deductibles yield the highest savings:

That's a **\$2,000** savings with just two credits!
If you met your One Decreasing Deductible after two credits, you'd pay \$8,000 instead of \$10,000.
As credits accumulate, your savings grow!

*In GA, One Decreasing Deductible is only available on policies with an HSA.

10% credits available twice a year – You start accumulating credits on January 1 and July 1 after your plan has been in force for two months. Each credit is 10% of your plan deductible.

Each year starts out with a 10% credit on January 1 – Even if you meet your One Decreasing Deductible in the previous year, we'll start the next year with a 10% credit on January 1. And, we'll apply another credit on July 1 if you haven't met your One Decreasing Deductible.

Credits start over after you meet your deductible – After you meet your One Decreasing Deductible, Assurant Health will pay covered expenses at 100% — according to your plan. You won't collect any more credits for the calendar year because your deductible has been met and your accumulating credits have been used. But, the following January 1, the process starts over with your plan deductible and your first 10% credit for the new year.

REWARDING • VALUABLE • SMART

Credits accumulate over time – Credits accumulate, year after year, until your One Decreasing Deductible is met. The deductible in your insurance contract stays the same but, credit by credit, the deductible amount you have to pay is reduced.

Savings of 10% to 70% – As you accumulate credits, your One Decreasing Deductible can go as low as \$1,500 for individual coverage or \$3,000 for family coverage. With the highest deductible options, you could see **deductible savings of 70%**.

REWARDING • VALUABLE • SMART

Easy for you – We'll track your credits and your One Decreasing Deductible amount. As long as you keep this coverage up-to-date, we'll do the rest.

Automatic – The credits you accumulate are applied automatically when you meet or exceed your One Decreasing Deductible.
