Declinable Drug List – Medicare Supplement

Always determine how the medication is used. Prescription medications may be used for multiple reasons. Insurability is based on the conditions listed on the actual application. There may be additional medications (conditions) not listed that could result in a decline. Make sure to list all medications on the application. Our Underwriting Department will have the final determination in all cases.

Drug Name	Use
Abilify	Schizophrenia
Acetate Megace	Cancer
Adalimumab	Rheumatoid Arthritis
Adriamycin	Cancer
Akineton	Parkinson's
Alfa Epogen	Renal Failure/Dialysis
Alkeran	Cancer
Altretamine	Cancer
Amantadine	Parkinson's
Ambenonium Chloride	Myasthenia Gravis
Anastrozole	Cancer
Antabuse	Alcoholism
Aricept	Alzheimer's
Arimidex	Cancer
Aripiprazole	Schizophrenia
Aromasin	Cancer
Arsenic Trioxide	Luekemia
Artane	Parkinson's
Avonex	Multiple Sclerosis
Azathioprine	Immunosuppressant
AZT	AIDS
Baclofen	Multiple Sclerosis (OK for Restless Leg Syndrome)
Bendopa	Parkinson's
Benzotropine Mesylate	Parkinson's
Betaseron	Multiple Sclerosis
Bicalutamide Oral	Prostate Cancer
Biperiden Hydrochloride	Parkinson's
Blenoxane	Cancer
Bleomycin	Cancer
Bromide Spiriva	COPD
Bromocriptine	Parkinson's (OK for Restless Leg Syndrome)
Busulfan	Cancer
Capecitabine	Colon/Breast Cancer
Casodex	Prostate Cancer
Carbidopa	Parkinson's

Always determine how the medication is used. Prescription medications may be used for multiple reasons. Insurability is based on the conditions listed on the actual application. There may be additional medications (conditions) not listed that could result in a decline. Make sure to list all medications on the application. Drug Name	Use
Cellcept	Rheumatoid Arthritis
Chlorambucil	Cancer
Chlorotianisene	Cancer
Chlorpromazine	Antipsychotic
Cilostazol	Peripheral Vascular Disease
Cisplatin	Cancer
Cogentin	Parkinson's
Cognex	Alzheimer's
Copaxone	Multiple Sclerosis
Cyclophosphamide	Cancer
Cycrimine	Parkinson's
Cycrimine Hydrochloride	Parkinson's
Cytoxan	Cancer
D4T	AIDS
Dantrium	Multiple Sclerosis
Dantrolene	Multiple Sclerosis
Deapril	Dementia
Depakote	Bipolar Disorder (OK for migraines only)
Disulfiram	Alcoholism
Dolophine	Narcotic
Donepezil	Alzheimer's
Dopar	Parkinson's
Doxorubicin	Cancer
Edrophonium Chlorides	Myasthenia Gravis
Eldepryl	Parkinson's
Emcyt	Cancer
Epoetin	Renal Failure/Dialysis
Epogen	Renal Failure/Dialysis
Ergamisol	Parkinson's
Ergoloid Mesylates	Memory Loss/Dementia
Eskalith	Psychosis/Depression
Estinyl	Cancer (other use is ok)
Estramustine	Cancer
Eulexin	Cancer
Exelon	Alzheimer's
Exemestane	Cancer
Falvestrant	Cancer
Fareston	Cancer
Faslodex	Cancer

Always determine how the medication is used. Prescription medications may be used for multiple reasons. Insurability is based on the conditions listed on the actual application. There may be additional medications (conditions) not listed that could result in a decline. Make sure to list all medications on the application. Our Underwriting Department will have the final determination in all cases.

Drug Name	Use
Femara	Cancer
Filgrastim	cancer
Fluphenazine Hydrochloride	Psychosis/Depression
Flutamide	Cancer
Foscarnet	AIDS
Foscavir	AIDS
Galantamine	Alzheimer's
Gallium Nitrate	Cancer
Ganite	Cancer
Gemtuzumab Ozogamicin	Leukemia
Geodon	Antipsychotic
Gerimal	Dementia
Glatiramer	Multiple Sclerosis
Gleevec	Cancer
Gold Shots	Rheumatoid Arthritis
Goserelin	Cancer
Haldol	Antipsychotic
Haloperidol	Antipsychotic
Herceptin	Breast Cancer
Hexalen	Cancer
Humalog	Diabetes
Humira	Rheumatoid Arthritis
Humulin	Diabetes
Hydergine	Memory Loss/Dementia
Hydrea	Cancer
Hydrochloride Pagitane	Parkinson's
Hydroxychloroquine	Lupus/Connective Tissue Disorders
Hydroxyurea	Cancer
Hyoscyamine	Parkinson's (OK for IBS, colon spasms)
Imatinib Mesylate	Cancer
Imdurm	Angina
Imuran	Immunosuppressant
Infliximab	Rheumatoid Arthritis
Insulin	Diabetes
Interferon Beta - 1a	Multiple Sclerosis
Intron	HIV
Isordil	Heart
Isordil	Angina
Isosorbide	Heart

Always determine how the medication is used. Prescription medications may be used for multiple reasons. Insurability is based on the conditions listed on the actual application. There may be additional medications (conditions) not listed that could result in a decline. Make sure to list all medications on the application. Drug Name	Use
Kaletra	AIDS
Kemadrin	Parkinson's
Kogenate	Hemophilia
Lamictal	Bipolar Disorder
Lamotrigine	Bipolar Disorder
Lantus	Diabetes
Larodopa	Parkinson's
L-Dopa	Parkinson's
Letrozole	Cancer
Leukeran	Cancer
Leuprolide	Prostate Cancer
Levamisole	Parkinson's
Leviamsole	Cancer
Levodopa	Parkinson's
Levsin	Parkinson's (OK for IBS, colon spasms)
Levsinex	Parkinson's (OK for IBS, colon spasms)
Lioresal	Multiple Sclerosis (OK for Restless Leg Syndrome)
Lithium	Psychosis/Depression
Lodosyn	Parkinson's
Lopinavir	AIDS
Loxapine	Antipsychotic
Loxitane	Antipsychotic
Lupron	Prostate Cancer
Megace	Cancer
Megestrol	Cancer
Megestrol Acetate	Cancer
Mellaril	Schizophrenia
Melphalan	Cancer
Memantine Hydrochloride	Alzheimer's
Mesoridazine	Antipsychotic
Mestinon	Myasthenia Gravis
Methadone	Narcotic
Methadose	Narcotic
Methotrexate	Rheumatoid Arthritis
Mirapex	Parkinson's (OK for Restless Leg Syndrome)
Mitomycin	Cancer
Moban	Antipsychotic
Molindone	Antipsychotic
Morphine	Narcotic Analgesic

Always determine how the medication is used. Prescription medications may be used for multiple reasons. Insurability is based on the conditions listed on the actual application. There may be additional medications (conditions) not listed that could result in a decline. Make sure to list all medications on the application. Our Underwriting Department will have the final determination in all cases.

Drug Name	Use
Mutamycin	Cancer
Mycophenolate Mofetil	Rheumatoid Arthritis
Myleran	Cancer
Mylotarg	Leukemia
Mytelase	Myasthenia Gravis
Namenda	Alzheimer's
Navane	Antipsychotic
Neosar	Cancer
Neostigmine	Myasthenia Gravis
Neupogen	Cancer
Nilandron	Cancer
Niloric	Dementia
Nilutamide	Cancer
Nitro Patch	Angina
Nitro-bid	Angina
Nitroglycerin	Angina
Nitrotab	Angina
Olanzapine	Schizophrenia
Oxcarbazepine	Seizures/Bipolar
Oxygen	Any condition
Pagitane	Parkinson's
Parlodel	Parkinson's (OK for Restless Leg Syndrome)
Parsidol	Parkinson's
Parsitan	Parkinson's
Pentam 300	AIDS
Pentamidine	AIDS
Pentoxifylline	Peripheral Vascular Disease
Pergolide	Parkinson's (OK for Restless Leg Syndrome)
Permax	Parkinson's (OK for Restless Leg Syndrome)
Plaquenil	Lupus/Connective Tissue Disorders
Platinol	Cancer
Pletal	Peripheral Vascular Disease
Pramipexole Dihydrochloride	Parkinson's (OK for Restless Leg Syndrome)
Procyclidine Hydrochloride	Parkinson's
Prolixin	Psychosis/Depression
Prostigmin	Myasthenia Gravis
Pyridostigmine	Myasthenia Gravis
Quetiapine	Schizophrenia
Razadyne	Alzheimer's

Always determine how the medication is used. Prescription medications may be used for multiple reasons. Insurability is based on the conditions listed on the actual application. There may be additional medications (conditions) not listed that could result in a decline. Make sure to list all medications on the application. Our Underwriting Department will have the final determination in all cases.

Drug Name	Use
Razadyne Reminyl	Alzheimer's
Rebif	Multiple Sclerosis
Remicade	Rheumatoid Arthritis
Reminyl	Alzheimer's
Requip	Parkinson's (OK for Restless Leg Syndrome)
Retrovir	AIDS
Rheumatrex	Rheumatoid Arthritis
Rilutek	ALS
Riluzole	ALS
Risperdal	Schizophrenia
Risperidone	Schizophrenia
Rivastigmine	Alzheimer's
Roferon	HIV
Ropinirole Hydrochloride	Parkinson's (OK for Restless Leg Syndrome)
Selegiline	Parkinson's
Serentil	Antipsychotic
Serlect	Antipsychotic
Seroquel	Schizophrenia
Sinemet	Parkinson's
Sorbitrate	Angina
Spiriva	COPD
Stavudine	AIDS
Steroids	COPD
Symadine	Parkinson's (OK for antifective)
Symmetrel	Parkinson's (OK for antifective)
TACE	Cancer
Tacrine	Alzheimer's
Tensilon	Myasthenia Gravis
Thalidomid T	Cancer, Leprosy, AIDS
Thalidomide	Cancer, Leprosy, AIDS
Thioridazine	Schizophrenia
Thioridzine	Schizophrenia
Thiothixene	Antipsychotic
Thorazine	Antipsychotic
Tiotropium	COPD
Tiotropium Bromide	COPD
Toremifene	Cancer
Trastuzumab	Breast Cancer
Trelstar	Cancer

Always determine how the medication is used. Prescription medications may be used for multiple reasons. Insurability is based on the conditions listed on the actual application. There may be additional medications (conditions) not listed that could result in a decline. Make sure to list all medications on the application. Our Underwriting Department will have the final determination in all cases.

Drug Name	Use
Tremin	Parkinson's
Trental	Peripheral Vascular Disease
Trihexyphenidyl	Parkinson's
Trileptal	Seizures/Bipolar
Triptorelin	Cancer
Trisenox	Luekemia
Tumor	AIDS
Tumor Necrosis Factor	AIDS
Valproic Acid	Bipolar Disorder
Wellferon, Roferon	HIV
Xelods	Colon/Breast Cancer
Zerit	AIDS
Zidovudine	AIDS
Ziprasidone	Antipsychotic
Zoladex	Cancer
Zyprexa	Schizophrenia
