### Medicare Advantage plans (Part C)

**Medicare Health Maintenance Organization Point of Service (HMO-POS)** — A Medicare Advantage Plan that provides all Original Medicare Part A & Part B health coverage and sometimes covers Part D prescription drug coverage. With the HMO-POS plan, you must use our plan providers to get your covered services at the highest benefit level except in limited circumstances such as an emergency. Under the POS, or out-of-network coverage, you may see any provider who accepts Medicare payments within the United States and its territories. However, you will pay slightly more for most services.

**Medicare Preferred Provider Organization (PPO) Plan** — A Medicare Advantage Plan that provides all Original Medicare Part A & Part B health coverage and sometimes covers Part D prescription drug coverage. PPOs have network doctors and hospitals but you can use out-of-network providers with no prior authorization required on most services, usually at a higher cost.

### Dental/Vision/Hearing Products

Plans offering additional dental, vision and/or hearing benefits for consumers looking for this coverage. These plans are not affiliated with or connected to Medicare.

### Hospital Indemnity Products

Plans offering additional benefits; payable to consumers based on their medical utilization; sometimes used to defray copays/coinsurance. These plans are not affiliated or connected to Medicare.

### Medicare supplement plans (Medigap products)

Plans offering a supplemental policy to fill “gaps” in Original Medicare coverage. A Medigap policy typically pays some or all of the deductibles and coinsurance amounts applicable to Medicare-covered services, and sometimes covers items and services that are not covered by Medicare, such as care outside the country. These plans are not affiliated or connected to Medicare. NOTE: A Medigap plan cannot be used with a Medicare Advantage plan.
